Transition from CADDS to CalOMS

George Lembi

Transition from CADDS-to-CalOMS

- **Transition at the local level**
- **Transition at the state level**
- **Transition timeline**
- **Data conversion steps**
- **Initial CalOMS data**
- **Phase-out of CADDS**

CADDS-to-CalOMS Transition at the Local Level

- **Counties and direct providers (C/DCPs):**
  - **Today, collect and submit CADDS data to ADP**
  - **By January 2006, must transition to CalOMS data collection**
  - **Implement the new CalOMS questions into their data systems**
    - **Enhance existing system**
    - **Develop new system**
    - **Implement vendor software**
    - **Implement in-house software.**

CADDS-to-CalOMS Transition at the Local Level

- **What are the transition issues?**
- **How will these issues be handled?**
- **Develop a plan and timeline for the transition**
  - **Changes to data systems**
  - **New software or equipment**
  - **Training of staff**
  - **New data collection forms and processing steps**
  - **Transition of data, i.e. "data conversion".**

CADDS-to-CalOMS Transition at the Local Level

- **Counties and direct providers:**
  - **Handle conversion of their data in their own data systems as needed**
  - **Identify data conversion needs**
    - **What data needs to be converted?**
  - **Develop a strategy for data conversion**
    - **How will data be converted to the new system?**
    - **What are the timeline and steps for data conversion?**

CADDS-to-CalOMS Transition at the State Level

- **Today, ADP stores CADDS data in ADP's state-level CADDS system**

- **ADP's new CalOMS system:**
  - **Built with up-to-date technology**
  - **Ready to receive live CalOMS data from C/DCPs on November 1, 2005**
 - **Will replace the CADDS system as C/DCPs transition to CalOMS.**

CADDS-to-CalOMS Transition at the State Level

- **ADP:**
  - Is responsible for conversion of selected client data from ADP's CADDS to ADP's CalOMS
  - Has identified the data to be converted
  - Has developed a plan and timeline for conversion.

CADDS-to-CalOMS Transition Timeline

- **The following diagram provides a sample timeline for transition**
  - This timeline is for illustrative purposes only
  - The timeline and conversion steps may vary
- **This timeline focuses on the schedule for:**
  - **Final CADDS file submissions**
  - **CADDS-to-CalOMS data conversion**
 - **First CalOMS file submissions.**

CADDS-to-CalOMS Data Conversion Steps

1) **Preparation:**

- **Develop plans and procedures**

- **C/DCP completes Certification Test**

- **C/DCP and ADP identifies:**

    - **Final CADDS month**

    - **First CalOMS month**

    - **Transition Date.**

CADDS-to-CalOMS Data Conversion Steps

2) **Final CADDS data collection:**

- Providers close out old CADDS cases
- In final month, the C/DCP:
  - Prepares final CADDS records as normal
  - Submits final CADDS file
  - Notifies ADP of final submission
- ADP uses final CADDS file to update ADP's CADDS system.

CADDS-to-CalOMS Data Conversion Steps

3) Data Conversion:

- **ADP runs CADDS-to-CalOMS conversion program for C/DCP**
  - **Finds selected unmatched CADDS admission records**
  - **Copies these records to CalOMS**
- **ADP notifies C/DCP they can begin CalOMS file submissions.**

CADDS-to-CalOMS Data Conversion Steps

4) **Start-up of CalOMS Data Collection:**

– **After Transition Date, C/DCPs begin CalOMS data collection**

– **<u>All</u> admissions, discharges, annual updates and re-submissions through CalOMS**

– **After ADP notification, C/DCPs begin sending CalOMS data files through ITWS to ADP.**

CADDS-to-CalOMS
Initial CalOMS Data

- **Objectives**
  - **Transfer selected client data from CADDS to CalOMS**
  - **Minimize re-entry or re-submission of data**
  - **Reduce the amount of invalid data brought over from CADDS.**

CADDS-to-CalOMS
Initial CalOMS Data

CADDS Database

CalOMS Database

Select Admission Records

Create Initial Records

CADDS-to-CalOMS
Initial CalOMS Data

- **What initial data from CADDS will be established in CalOMS?**
  - **Selected "Open" cases will be copied**
    - **ADP has an Admission record but <u>not</u> a Discharge record for a client, i.e. an unmatched admission**
  - **"Closed" cases will remain in CADDS and not be copied**
    - **ADP has an Admission record <u>and</u> a matching Discharge record**
  - **ADP will provide an electronic listing**
  - **A C/DCP may request that ADP not copy any CADDS records to CalOMS.**

CADDS-to-CalOMS
Initial CalOMS Data

- **Which "open" cases will be copied?**
  - **All open cases for clients, regardless of admission date, where:**
    - **Client is in a Narcotic Treatment Program (NTP)**
    - **Referral is "Non-SACPA Court/Criminal Justice"**
    - **Client receiving services under SACPA**
  - **Open cases where client in NTP Detox or Short-term Residential program and admission date not > 90 days before Transition Date**
  - **Of the remaining open cases, where admission date is not > 18 months before Transition Date**
  - **All other open cases <u>will not</u> be converted.**

CADDS-to-CalOMS Phase-out of CADDS

- **How long will CADDS be used?**
  - **After its Transition Date, C/DCP not required to submit CADDS**
  - **CADDS database used for State-level reporting for State Fiscal Year 2005-06**
  - **Every month, until July 2006, ADP will run a CalOMS-to-CADDS update program**
  - **CalOMS database used for State-level reporting for State Fiscal Year 2006-07.**
